**NEWS FROM
THE MEDIA
CENTER THAT
YOU CAN USE
(REALLY)!**

Read any good (children's) books lately?

This is an amazing FREE site that is searchable by grade level and standard. It links the arts with ELA, science, social studies, and math standards in predesigned lessons!

There's plenty of research to support the notion that nothing improves academic achievement more than independent reading AND nothing gets kids more excited about reading than when adults they care about discuss books *they've* read and loved, so...why not check out a book from the Media Center for YOU to read and then mention it to the students? *They will then be racing to borrow it themselves!*
